

## **LOUISIANA BOARD OF REGENTS 2005-2006 TEACHER PREPARATION ACCOUNTABILITY SYSTEM**

### **STATE OVERVIEW**

In compliance with the Higher Education Act of 1998, Louisiana created a Teacher Preparation Accountability System to assess the performance of teacher preparation programs within the state. During the first phase (2001-2002) of the accountability system, the performance of the regular and alternate certification students on the state teachers' examination (PRAXIS) was assessed. During subsequent phases (2002-2003, 2003-04, and 2004-05), the quantity of program completers at each institution and the performance of each institution (e.g., performance of regular and alternate certification students on the state teachers' Praxis examinations and ratings by teachers of their teacher preparation programs) were assessed. In the future, additional factors will be assessed to examine such areas as ratings of programs by first year teachers' mentors and growth of learning of students taught by new teachers. The purpose of this accountability system is to clearly demonstrate to the public that all universities and colleges in Louisiana are working diligently to produce quality teachers who work effectively with PK-12 students.

During 2005-06, it was not possible to implement the Teacher Preparation Accountability System due to the closure of universities and schools in Louisiana and the inability to collect data from displaced teachers and mentors due to Hurricane Katrina and Hurricane Rita. However, quantity and PRAXIS examination passage rate data have been collected and are being disseminated to the public in the *2005-06 Institutional Reports for the Preparation of Teachers*. These reports can be found on the Board of Regents web site at: <http://asa.regents.state.la.us/TE/reports/2005>. This document provides an overview of the quantity of program completers and the passage rates of program completers at individual universities.
