**AGENDA**  
**SPONSORED PROGRAMS COMMITTEE**  
Wednesday, April 26, 2017  
11:20 a.m.  
The Claiborne Building  
Louisiana Purchase Room 1-100  
Baton Rouge, Louisiana

- I. Call to Order
- II. Roll Call
- III. FY 2016-17 Board of Regents Support Fund Award Recommendations
- IV. Consent Agenda
  - A. Appointment of Endowed Chairholders without National Search
    - 1. Louisiana Tech University
    - 2. LSU Health Sciences Center – New Orleans
- V. Other Business
- VI. Adjournment

**Committee Members:** Edward Markle, Chair; Thomas Henning, Vice Chair; Marty Chabert; Darren Mire; Benson Kinney; Roy Martin III; T. Jay Seale III

## AGENDA ITEM III

### FY 2016-17 Board of Regents Support Fund Award Recommendations

#### SECTION A: INTRODUCTION

##### A.1 Constitutionally Prescribed Program Components

The Constitution specifies that the Board of Regents Support Fund (BoRSF) may be used to support any or all of the following:

- a. The carefully defined research efforts at public and private universities in Louisiana;
- b. The endowment of chairs for eminent scholars;
- c. The enhancement of the quality of academic, research or agricultural departments or units within a university; and
- d. The recruitment of superior graduate students.

##### A.2 FY 2016-17 Board of Regents Support Fund Plan and Budget

###### a. Projected Budget and Funds Available

On January 6, 2016, the Board of Regents adopted the FY 2016-17 Plan and Budget for the BoRSF, which was later approved by the Governor and the Legislature. Based on Revenue Estimating Conference (REC) projections, the Plan and Budget allocated \$22,000,000 across Support Fund components as follows:

<b>FY 2016-17 Support Fund Budget As Set Forth in the Board's Annual Plan and Budget</b>	
Endowment of Chairs for Eminent Scholars	\$ 2,020,000
Research and Development	\$ 5,780,000
Enhancement of the Quality of Departments/Units	\$ 8,862,678
Recruitment of Superior Graduate Students	\$ 4,546,000
Board of Regents Administrative Expenses	<u>\$ 791,322</u>
<b>Total Funds Budgeted</b>	<b>\$22,000,000</b>

###### b. Actual Funds Available

Since approval of the FY 2016-17 BoRSF Plan and Budget in January 2016, the REC has issued several opinions relative to the amount of money projected to be available for higher education's portion of the Support Fund. The most recent estimate, released in January 2017, was \$20,600,000. This projection is significantly lower than the previous REC guidance and projections used to derive the approved Plan and Budget and, as a result, reductions in anticipated first-year funds must be taken in the competitive program components. Fortunately, cuts have been somewhat mitigated by the diligence of Support Fund staff in identifying savings in other budget categories.

#### SECTION B: ENDOWED CHAIRS FOR EMINENT SCHOLARS COMPONENT

##### B.1 Competitive Endowed Chairs

Nine (9) proposals were submitted and deemed eligible for funding consideration this year under the Competitive subprogram. Five (5) proposals requested \$400,000 each from the Support Fund to endow \$1 million chairs; three (3) proposals requested \$800,000 to endow \$2 million chairs; and one (1) proposal requested \$1,200,000 to endow a \$3 million chair. All requests were to establish new chairs.

## B.2 Restricted Bequest Endowed Chairs

No requests for matching of restricted bequests were submitted in FY 2016-17.

## B.3 Summary of the Endowed Chairs for Eminent Scholars Program

The nine (9) Endowed Chairs proposals requested a total of \$5,600,000 in matching funds from the Support Fund. All disciplines were eligible to apply. A team of out-of-state consultants visited Louisiana in March 2017 to interview campus representatives, evaluate the proposals, and rank them using the guidelines provided in the Board's RFP and subprogram policy. (See **Appendix A** for the rank-order list of FY 2016-17 Endowed Chairs proposals and **Appendix B** for a summary of all competitive endowment proposals recommended for funding.)

It should be noted that the following stipulation in the Board's Endowed Chairs policy is relevant to proposals submitted in the Competitive subprogram: "...When requests exceed funds available, the following limitations apply relative to the amount of money that will be awarded per campus under the competitive program: (a) each public campus will be limited to \$1.2 million per fiscal year; and (b) all LAICU campuses combined will be limited to a total of \$1.2 million per fiscal year."

The \$2,020,000 projected in the FY 2016-17 Plan and Budget to be available in the Endowed Chairs for Eminent Scholars subprogram includes \$20,000 for consultants. Due to budgetary constraints, a reduction of \$400,000 (one slot) is necessary, leaving \$1,600,000 for allocation to successful proposals. This amount will enable funding for proposals ranked 1 and 3 in the Competitive subprogram; the proposal ranked second cannot be funded due to the per-campus funding limitation noted above.

### Senior Staff Recommendation

**The Senior Staff recommends provision of Support Fund money at levels requested to complete the endowments for proposals ranked 1 and 3 in the Consultants' Report (i.e., proposals 002EC and 007EC). (See Appendix A.)**

## SECTION C: ENHANCEMENT OF THE QUALITY OF DEPARTMENTS OR UNITS COMPONENT

### C.1 Recommended New Traditional Enhancement Projects

The \$8,862,678 figure cited in the FY 2016-17 Plan and Budget for Enhancement included the following distributions:

<b>Prior Commitments</b>	
Traditional Enhancement	\$ 300,000
Federal Matching Grants	\$1,425,000
<b>New Awards</b>	
Federal Matching Grants	\$ 250,000
Endowed Two-Year Workforce Scholarships	\$ 800,000
Endowed First-Generation Undergraduate Scholarships	\$1,000,000
Endowed Professorships	\$2,000,000
Traditional Enhancement	\$3,087,678
<b>TOTAL</b>	<b>\$8,862,678</b>

The five eligible disciplines in Traditional Enhancement in FY 2016-17 are business, chemistry, education, mathematics, and physics & astronomy.

In the winter of 2016 and spring of 2017, six teams of out-of-state consultants reviewed, evaluated and ranked the various types of competitive Enhancement proposals. Using the Board’s evaluation criteria, five teams evaluated, rated and ranked Traditional Enhancement proposals in the five eligible disciplines; the sixth team evaluated, rated and ranked Multidisciplinary Enhancement. The Endowed Two-Year Workforce Scholarships subprogram received only \$620,000 in funding requests, so no review was conducted. Each team had appropriate expertise and experience relative to the specific requirements of the discipline and/or component being reviewed.

With the exception of the Multidisciplinary component, the allocation level for each of the eligible disciplines in the Traditional Enhancement subprogram was determined by calculating proposal pressure and the amount of Support Fund money requested per discipline as a percentage of the total proposal pressure and amount of Support Fund money requested across these five disciplines in the Traditional Enhancement component. As stipulated in the FY 2016-17 Plan and Budget, Multidisciplinary Enhancement was calculated as 20% of the total available. The total maximum funding anticipated to be available for meritorious proposals in each of the root disciplines in Traditional Enhancement as well as Multidisciplinary Enhancement, based on allocations in the FY 2016-17 Plan and Budget, was calculated as follows:

Business	\$ 469,327
Chemistry	\$ 938,654
Education	\$ 494,028
Mathematics	\$ 247,014
Physics & Astronomy	\$ 321,119
Multidisciplinary	\$ 617,536
<b>TOTAL</b>	<b>\$3,087,678</b>

These amounts helped to guide consultants in the development of funding recommendations. The following table summarizes consultants’ recommendations for Traditional Enhancement in each discipline and the Multidisciplinary component (**Appendix C**):

<b>Enhancement Discipline/Component</b>	<b># of Proposals Submitted</b>	<b>1<sup>st</sup>-Year Funds Requested</b>	<b># of Proposals Recommended</b>	<b>1<sup>st</sup>-Year Awards Recommended</b>
Business	18	\$ 1,834,087	9	\$ 446,681
Chemistry	36	\$ 3,436,689	10	\$ 939,982
Education	22	\$ 1,560,965	7	\$ 397,702
Mathematics	10	\$ 918,063	4	\$ 217,112
Physics & Astronomy	11	\$ 1,412,854	2	\$ 322,587
Multidisciplinary	16	\$ 2,312,591	4	\$ 516,395
<b>Traditional Enhancement Total</b>	<b>113</b>	<b>\$11,475,249</b>	<b>36</b>	<b>\$2,840,459</b>

**Senior Staff Recommendations**

The \$2,840,459 available and recommended for expenditure shall be awarded in the rank order, at the funding levels, and with the funding stipulations recommended by consultants, and shall be divided among the five eligible disciplines and multidisciplinary projects as follows (see Appendix C):

<b>Discipline</b>	<b>Ranks</b>	<b>Total Funding</b>
Business	1-9	\$ 446,681
Chemistry	1-10	\$ 939,982
Education	1-7	\$ 397,702
Mathematics	1-4	\$ 217,112
Physics & Astronomy	1-2	\$ 322,587
Multidisciplinary	<u>1-4</u>	<u>\$ 516,395</u>
<b>Total</b>	<b>36 projects</b>	<b>\$2,840,459</b>

**Should the amount of money ultimately available to fund first-year activities in Traditional Enhancement projects be less than the \$2,840,459 disbursed herein, the following principles shall apply: (1) All Support Fund money shall be awarded in rank order, at funding levels and with stipulations recommended by consultants; (2) if the remaining money in the budget for a particular discipline is insufficient to fully fund the next recommended proposal for that discipline, the remaining funds shall constitute the total award for that proposal; and (3) should an institution refuse or be denied an award, that money shall be awarded to the next highest ranked proposal within that discipline. (See Appendix C.)**

**Appendix D** summarizes by campus the Priority I recommendations for new projects under Traditional Enhancement.

**C.2 Endowed Professorships**

The Board of Regents Support Fund Endowed Professorships subprogram requires the submitting college or university to raise at least \$60,000 from external sources, which is matched by \$40,000 from the Support Fund, thus establishing an endowed professorship valued at a minimum of \$100,000. The subprogram policy guarantees two \$40,000 matching slots to each four-year and special purpose campus, and one \$40,000 matching slot to each two-year campus.

The FY 2016-17 Support Fund Plan and Budget allocates a total of \$2,000,000 to the Endowed Professorships subprogram for new, prior-year (resubmitted), and backlogged requests. With all requests validated, the Board received by the March 31, 2017 deadline applications for 198 Endowed Professorship \$40,000 slots (58 new requests; 110 prior-year requests; 30 backlogged) from 17 campuses, requiring \$7,920,000 in BoRSF matching funds. Each eligible submitting campus will receive matching for a maximum of four slots (\$160,000), totaling \$1,880,000. The \$120,000 remaining will match three backlogged slots at LSU and A&M College (See **Appendix E.**) A complete list of Endowed Professorships applications submitted for funding consideration in FY 2016-17 appears in **Appendix F.**

**Senior Staff Recommendation**

**The Senior Staff recommends approval of \$2,000,000 from the Support Fund for the Endowed Professorships subprogram: \$1,880,000 to match forty-seven (47) new and prior-year and \$120,000 to match three (3) backlogged submissions. (See Appendix E.)**

**C.3 First-Generation Endowed Undergraduate Scholarships**

The Board of Regents Support Fund First-Generation Endowed Undergraduate Scholarships subprogram requires a submitting four-year college or university to raise at least \$60,000 from external or institutional sources, which is matched by \$40,000 from the Support Fund, thus establishing an endowed scholarship valued at a minimum of

\$100,000; two-year campuses must provide \$30,000, to be matched with \$20,000 from the Support Fund to establish an endowed scholarship valued at a minimum of \$50,000.

The FY 2016-17 Support Fund Plan and Budget allocates a total of \$1,000,000 to the First-Generation Endowed Undergraduate Scholarships subprogram for the establishment of at least 25 endowed scholarships for first-generation undergraduate students. With all disciplines eligible and all requests validated, the Board has received applications for five (5) \$20,000 and thirty-five (35) \$40,000 scholarship matches. It would require \$1,500,000 to fund all submissions. A list of applications appears in **Appendix G**.

Each submitting campus will receive a maximum of three matches for scholarship submissions, totaling \$980,000. After funding three submissions per eligible campus, remaining funds of \$20,000 are insufficient to provide a match to any remaining requests. (See Section C.2, above.)

#### **Senior Staff Recommendation**

**The Senior Staff recommends approval of \$980,000 from the Support Fund to match twenty-seven (27) applications submitted in FY 2016-17 under the First-Generation Endowed Undergraduate Scholarships subprogram. (See Appendix G.)**

#### **C.4 Endowed Two-Year Student Workforce Scholarships**

The competitive Endowed Two-Year Student Workforce Scholarships subprogram provides scholarship opportunities for students on two-year campuses to enter the Louisiana workforce in the following ways: (a) train students for immediate entrance into selected, high-demand, four- and five-star jobs, including positions in nursing and allied health; and/or (b) prepare students to become job-ready in STEM fields after completing degrees on four-year campuses. Non-State contributions combined with a BoRSF match will produce permanent endowments. This subprogram replaces the Enhancement Subprogram for Two-Year Institutions.

The FY 2016-17 Support Fund Plan and Budget allocates a total of \$800,000 to the Two-Year Student Workforce Scholarships subprogram, to be awarded on a competitive basis. With all requests validated, however, the Board has received applications for the matching of thirteen scholarships, requesting BoRSF funding of \$620,000. A list of applications appears in **Appendix H**. It was determined that a competitive review was not needed and all requests should be recommended for funding. (See **Appendix B** for a summary of all competitive endowment proposals recommended for funding.) The \$180,000 remaining in the subprogram budget was used to accommodate budget reductions necessitated by lower-than-expected revenues to the BoRSF.

#### **Senior Staff Recommendation**

**The Senior Staff recommends approval of \$620,000 from the Support Fund to match thirteen (13) applications submitted in FY 2016-17 under the Endowed Two-Year Workforce Scholarships subprogram. (See Appendix H.)**

### **SECTION D: RESEARCH AND DEVELOPMENT COMPONENT**

#### **D.1 Continuation of Previously Funded Research and Development (R&D) Projects and Other Prior Commitments**

The \$5,780,000 cited in the FY 2016-17 Plan and Budget as being available for Research and Development (R&D) includes amounts for prior commitments to Support Fund R&D awards approved in previous years as well as approximately \$135,000 in consultants' costs for the FY 2016-17 R&D review process.

**D.2 Recommended New Research and Development Projects**

The R&D component of the BoRSF includes the Research Competitiveness Subprogram (RCS), the Industrial Ties Research Subprogram (ITRS) with Proof-of-Concept/Prototyping (PoC/P) component, and the Awards to Louisiana Artists and Scholars (ATLAS) subprogram. RCS solicits proposals that strengthen the research foundations and competitiveness of Louisiana colleges and universities and help to promote long-term economic development. ITRS and PoC/P target proposals that support research with significant near-term potential for development and diversification of Louisiana’s economic base. ATLAS supports completion of major scholarly and artistic endeavors from the arts, humanities, and social sciences with potential for broad impact on State, regional, national and/or international levels.

Eligible disciplines in RCS for FY 2016-17 are biological sciences, computer/information sciences, earth & environmental sciences, chemistry, engineering B (industrial, materials, and mechanical), and health & medical sciences. ITRS with PoC/P invites ideas for applied research projects that promote near-term economic development in the State; accordingly the five high-priority industry sectors – advanced manufacturing and materials, clean technology and energy, coastal and water management, digital media and enterprise software, and life sciences and bioengineering – are targeted for support, though other disciplines may apply provided the project can demonstrate a significant potential economic benefit to Louisiana. ATLAS accepts proposals in all arts, humanities and social sciences areas.

From November 2016 through March 2017, 43 subject-area reviewers and twelve final panel members across four panels reviewed, evaluated, and ranked research proposals according to the Board’s RFP guidelines and evaluation criteria. The following table summarizes consultants’ recommendations across the four R&D subprograms/components (See **Appendix I**):

<b>R&amp;D Subprogram</b>	<b>Number of Proposals Submitted</b>	<b>First-Year Funds Requested</b>	<b>Number of Proposals Recommended</b>	<b>First-Year Awards Recommended</b>
Research Competitiveness Subprogram	155	\$ 7,335,489	34	\$ 1,596,283
Industrial Ties Research Subprogram	28	\$ 2,489,579	7	\$ 440,700
Proof-of-Concept/Prototyping	20	\$ 761,950	8	\$ 312,043
Awards to LA Artists and Scholars	<u>56</u>	<u>\$ 2,378,248</u>	<u>17</u>	<u>\$ 617,700</u>
<b>TOTAL</b>	<b>259</b>	<b>\$12,965,266</b>	<b>66</b>	<b>\$2,966,726</b>

**Senior Staff Recommendations**

**The Senior Staff recommends approval of disbursement of \$2,521,726 estimated to be available in FY 2016-17 to fund the first year of new RCS, ITRS, PoC/P, and ATLAS projects as follows:**

- 1. Research Competitiveness Subprogram: \$1,350,000**
- 2. Industrial Ties Research Subprogram: \$440,700**
- 3. Proof-of-Concept/Prototyping Initiative: \$309,300**
- 4. Awards to Louisiana Artists and Scholars: \$421,726**

**Most approved R&D proposals shall be funded at the levels and with the stipulations recommended by consultants; Support Fund money shall be awarded to fund at recommended levels the top twenty-seven (27) RCS proposals, seven (7) ITRS proposals, seven (7) PoC/P proposals, and eleven (11) ATLAS**

proposals; the RCS proposal ranked 28<sup>th</sup>, PoC/P proposal ranked eighth and ATLAS proposal ranked 12<sup>th</sup> shall be funded partially, based on the amount of remaining funds in each category. In addition, the following principles shall apply: (1) should an institution refuse or be denied an award, or should FY 2016-17 money be returned from previously funded R&D contracts, that money shall first be used to provide full funding to rank orders partially supported with remaining funds, then offered to the next-ranked proposal which the consultants recommended for Priority I funding within the respective subprogram (ranks 29-34 in RCS and ranks 13-17 in ATLAS), subject to availability of funds; (2) if the remaining money in the budget for a particular component is insufficient to fully fund the next-ranked recommended proposal for that component, the remaining funds shall constitute the total award for that proposal; and (3) if there are no remaining Priority I proposals in a particular subprogram the money shall be awarded in descending rank order to Priority I proposal(s) in another R&D subprogram in accordance with restrictions applicable to allocation of funds for multi-year projects. Should the amount of money ultimately available to fund first-year activities in all R&D projects be less than the \$2,521,726 disbursed herein, adherence to the following principles shall be uniformly enforced: R&D Priority I proposals shall be funded in rank order at the levels and the durations and with the stipulations recommended by consultants until the funds designated for each component have been exhausted. (See Appendix I.)

Appendix J includes a summary, by campus and R&D subprogram, of new projects recommended for funding.

## SECTION E: RECRUITMENT OF SUPERIOR GRADUATE STUDENTS COMPONENT

### E.1 Traditional Graduate Fellowships

Awards must be made under the Recruitment of Superior Graduate Students Program component more than one year prior to the time that funds are provided for the first year of the fellowship, since at least one year is required to conduct student recruitment activities, and committed for all remaining years to ensure ongoing student support.

The twelve eligible disciplines in the Traditional Graduate Fellows component in FY 2016-17 are agricultural sciences, biological sciences, business, chemistry, computer and information sciences, earth and environmental sciences, education, engineering A and B, health and medical sciences, mathematics, physics and astronomy, and social sciences.

In March 2017, a team of out-of-state consultants with expertise in both doctoral and master's-level programs, reviewed, rated and ranked twenty-four (24) Traditional Graduate Fellowships proposals in accordance with the Board's evaluation criteria. A total of \$1,992,556 in first-year funds was requested for Traditional Graduate Fellowships, and consultants were informed that \$800,000 in first-year funds were allocated for new projects. All funded projects will begin in FY 2018-19.

Of the proposals submitted, the consultants recommended the top-rated twenty-one (21) Traditional Graduate Fellowships applications, for a total first-year expenditure of \$797,500. (See Appendix K.) Yearly funding totals for all recommended proposals are:

FY 2018-19	\$797,500
FY 2019-20	\$797,500
FY 2020-21	\$757,500
FY 2021-22	\$757,500

**Senior Staff Recommendation**

**The Senior Staff recommends approval of funding for the twenty-one (21) top-ranked Traditional Graduate Fellows proposals submitted in the FY 2016-17 cycle for the durations and at the levels recommended by consultants. (See Appendix K.)**

**E.2 BoRSF/Southern Regional Education Board Graduate Fellowships to Promote Diversity**

Four (4) institutions submitted a total of four (4) proposals requesting funds for the support of 17 doctoral fellows in the FY 2016-17 competitive cycle for this subprogram. (See **Appendix K.**) A total of \$425,000 in first-year funds was requested. Consultants recommended support for all four (4) proposals, for a total first-year allocation of \$225,000. Funding will begin in FY 2017-18. For the recommended proposals, the yearly funding totals are:

FY 2017-18	\$225,000
FY 2018-19	\$225,000
FY 2019-20	\$225,000
FY 2020-21	\$180,000

**Senior Staff Recommendation**

**The Senior Staff recommends approval of funding for the four (4) proposals submitted in the FY 2016-17 cycle to the BoR/SREB Graduate Fellowships to Promote Diversity subprogram for the durations and at the levels recommended by consultants. (See Appendix K.)**

**Appendix K** also contains a summary of the recommendations of Traditional Graduate Fellowships and BoR/SREB Graduate Fellowships proposals solicited in FY 2016-17, for which funding will begin in FY 2018-19 and FY 2017-18, respectively.

**E.3 Endowed Superior Graduate Student Scholarships**

The Endowed Superior Graduate Student Scholarships subprogram matches non-State contributions of at least \$60,000 with \$40,000 from the BoRSF to create endowed scholarships that may be used in support of graduate and first-professional students as well as post-doctoral fellows. Higher levels of endowment, in minimum increments of \$60,000, may be matched with additional \$40,000 contributions from the Support Fund. The initial corpus of the endowment must remain intact, while income above the corpus may be used to benefit the student recipient in the form of scholarships, fellowships, and/or experiential opportunities, including internships, externships, conference travel, and field work.

The FY 2016-17 Support Fund Plan and Budget allocates a total of \$1,000,000 to the Endowed Superior Graduate Student Scholarships subprogram, to be awarded on a competitive basis. With all requests validated, the Board has received applications from five campuses for the matching of 29 scholarships, requesting BoRSF funds of \$2,560,000. A rank-order list of applications appears in **Appendix L.** (See **Appendix B** for a summary of all competitive endowment proposals recommended for funding.)

**Senior Staff Recommendation**

**The Senior Staff recommends approval of \$1,000,000 from the Support Fund to match fourteen (14) applications submitted in FY 2016-17 under the Endowed Superior Graduate Student Scholarships subprogram. (See Appendix L.)**

## **SECTION F: CONTINGENCY PLAN FOR BUDGETARY SHORTFALL**

### **Senior Staff Recommendation**

**The Senior Staff recommends approval of the following contingency plan for a budgetary shortfall: should the final FY 2016-17 Support Fund budget not achieve the amount cited herein, any shortfall shall be accommodated through a proportionate reduction in the amounts allocated for proposals in the competitive non-endowment Enhancement and Research and Development program components.**

## **SECTION G: CAMPUS SUCCESS RATES**

**Appendix M** contains a chart that summarizes – by campus and program – the number of proposals submitted to competitive Support Fund components, proposals recommended for funding, and first-year and total funding recommended for all Priority I proposals during the FY 2016-17 BoRSF competitive cycle.

## **APPENDIX A**

## RANK ORDER

### BoRSF Endowed Chairs for Eminent Scholars Subprogram Proposals Submitted FY 2016-17

#### Competitive Subprogram

<b>Rank</b>	<b>Proposal Number</b>	<b>Institution</b>	<b>Title of Chair</b>	<b>BoRSF Match Requested</b>	<b>Total Points (100 Points)</b>
1	002EC-17	LSU and A&M College	Shirley C. Tucker Chair in Biological Sciences	\$800,000	99
2	001EC-17	LSU and A&M College	Douglas L. Manship, Sr.-Dori J. Maynard Chair in Race, Media & Cultural Literacy	\$1,200,000	98
3	007EC-17	Tulane University	Scott and Marjorie Cowen Chair in Latin American Social Sciences II	\$800,000	96
4	003EC-17	LSUHSC-NO	Cancer Crusaders Chair in Advanced Cancer Therapy Research	\$400,000	94
5	004EC-17	LSUHSC-NO	David Drez, Jr., M.D. Chair	\$400,000	93
6	008EC-17	UL Monroe	B. W. Biedenharn Chair in Business	\$400,000	90
7	009EC-17	UL Monroe	ULM Endowed Chair in Agriculture	\$400,000	88
8	006EC-17	LSU-Shreveport	Miriam M. Sklar Endowed Chair in Math and Physics	\$400,000	80
9	005EC-17	LSUHSC-S	The Medical Center Clinics Endowed Chair in Graduate Medical Education	\$800,000	62

## AGENDA ITEM IV.A

### **Consent Agenda: Appointment of Chairholders without National Search**

- 1. Louisiana Tech University**
- 2. LSU Health Sciences Center – New Orleans**

#### **Background Information**

At its January 12, 2015 meeting, the Board unanimously approved the following revision to the Endowed Chairs for Eminent Scholars policy:

Effective immediately, all campuses shall provide documentation to the Commissioner of Higher Education that each Chair vacancy is being filled – whether externally or internally – following a national search. Any request for waiver of this policy shall be made in writing to the Commissioner of Higher Education and reviewed by external consultants. Upon receipt of the consultants' response, the Commissioner will provide a formal recommendation for consideration and approval by the Board of Regents. Board approval of the waiver must be provided prior to appointment of the chairholder. The Board reserves the right to render a campus not in compliance with this policy to be ineligible for new Endowed Chairs funds.

#### **1. Louisiana Tech University**

##### **Staff Summary**

Louisiana Tech's Harold J. Smolinsky Eminent Scholar Chair for the College of Administration and Business was matched by the BoRSF in FY 1989-90 in support of the Accounting program. In accordance with current policy, Louisiana Tech has requested waiver of the Endowed Chairs national search requirement to appoint Dr. William Stammerjohan, currently KPMG Endowed Professor in the School of Accountancy, College of Business, to the Smolinsky Chair. Documentation outlining Dr. Stammerjohan's qualifications was provided to an external reviewer, who concluded that this appointment is appropriate and recommended approval; the Commissioner of Higher Education concurred.

##### **Senior Staff Recommendation**

**The Senior Staff recommends approval of Louisiana Tech University's request to appoint Dr. William Stammerjohan to the Harold J. Smolinsky Eminent Scholar Chair for the College of Administration and Business without a national search. As stipulated in Board policy, a Letter of Appointment to Dr. Stammerjohan must be submitted to the Board within 90 days of this approval.**

## **2. LSU Health Sciences Center – New Orleans**

### **Staff Summary**

The R. Jack and Mary Louise Cassingham, DDS, Chair in Periodontics at LSUHSC-NO was matched by the BoRSF in FY 2004-05 and is currently vacant. In accordance with policy, LSUHSC-NO has requested waiver of the Endowed Chairs national search requirement to appoint Dr. Gerald H. Evans, currently Chair of the Department of Periodontics, to the Cassingham Chair. Dr. Evans was appointed as Department Chair in 2015 as the result of a national search. Documentation outlining his qualifications was provided to an external reviewer, who concluded that this appointment is appropriate and recommended approval; the Commissioner of Higher Education concurred.

### **Senior Staff Recommendation**

**The Senior Staff recommends approval of LSU Health Science Center – New Orleans’ request to appoint Dr. Gerald H. Evans to the R. Jack and Mary Louise Cassingham, DDS, Chair in Periodontics without a national search. As stipulated in Board policy, a Letter of Appointment to Dr. Evans must be submitted to the Board within 90 days of this approval.**
