REPORTS AND RECOMMENDATIONS BY THE COMMISSIONER OF HIGHER EDUCATION

Commissioner of Higher Education Jim Purcell thanked the members of the Board of Regents and Governance Commission for attending the House Education Committee meeting on the morning of April 25, 2012.

He next reminded the Board of the recommendations submitted by the Governance Commission that the Regents have been addressing in recent months, such as:

- GO Grant studies;
- Tuition and financial aid policies;
- Common course numbering;
- Fiscal watch for institutions in financial difficulties;
- Plans from campuses with new admission standards; and
- Revision of formula funding.

Dr. Purcell mentioned that the Revenue Estimating Conference met on Tuesday, April 24, 2012. A dire commentary was presented regarding Louisiana’s fiscal future, which will increase the need for the Board to make additional thoughtful decisions on budget cuts.

Commissioner Purcell said an employee satisfaction survey was recently conducted with the staff of the Board of Regents. Twelve questions were asked of each employee, and the results showed an overall satisfaction with their jobs and work environment. Dr. Purcell hopes to do an annual staff survey to have a benchmark to show how improvements can be made at work.

Dr. Charles Schroeder, Senior Consultant, Noel-Levitz, will visit the staff of the Board of Regents on Monday, April 30, 2012, to assist the Regents in finding ways to provide training opportunities for campus mid-level employees. These suggestions will assist in building the higher education workforce leadership that Louisiana wants and needs.

The next Board meeting will be held on the Southern University campus in May 2012.
Dr. Purcell spoke briefly regarding the GRAD Act and the fact that some institutions have not done as well as others meeting their targets.

Commissioner Purcell also mentioned having good conversations with State Superintendent of Education John White regarding the Early Start/Dual Enrollment Program. The Board of Regents will be part of a pilot program through the State Department of Education’s 8(g) Statewide Program. The pilot project will cost approximately $800,000. Some of the special goals and objectives include increasing and ensuring academic rigor by providing opportunities for public high school students to earn college credit through post-secondary course offerings while simultaneously earning high school credit, and to accelerate high school graduation and/or earn advanced standing in college. He thanked Debbie Schum, Deputy Superintendent of the Office of College and Career Readiness, and Superintendent White for their efforts in this project.
