He further expressed the Commissioner’s appreciation to the Governor and the Legislature for continuing to make education a priority.

He noted that Mr. Marvin Roubique, Deputy Commissioner for Finance and Facilities, provided an update on the $878 million in higher education capital outlay projects included in the capital outlay bill.

Mr. Vandal stated that Deputy Commissioner Reed provided an update on the bills and resolutions impacting postsecondary education which passed during the 2003 Legislative Session. Mr. Roubique noted that no action was taken on the update given on the progress of developing possible revisions for the Postsecondary Education Funding Formula.

OTHER BUSINESS

Mr. Roubique said there was discussion about utility rates at various institutions. He pointed out that even though utility rates currently were not as high as several years ago, it was possible for a return to those levels. Committee members agreed that while the staff had pursued this same objective two years ago for all of higher education, it was time to again request the appropriate state agencies to work with the Regents to formulate a bulk energy purchasing program.

On motion of Regent Strong, seconded by Regent Smith, the Board voted unanimously to adopt the Finance Committee Meeting Report of June 25, 2003, as presented. (Copy on file in the office of the Board of Regents.)

Regent Strong noted that, during the legislative session, funding for postsecondary education improved for the new fiscal year. He noted that the budget includes a provision of funds for mandated costs, continued community college and technical college development, performance and quality improvements, and other initiatives. He noted that funding would also accrue to the institutions due to the 3% tuition increase as well as the academic enhancement fees to be imposed for the new academic
year. However, the state’s financial outlook beyond next fiscal year is at least uncertain if not hazardous.

On motion of Regent Strong, seconded by Regent Levy, the Board voted unanimously to direct the Commissioner of Higher Education and his staff to meet with the system offices to develop plans and strategies for the allocation and appropriate/best use of all new funds, particularly mindful of the goals and objectives of the Master Plan. The plan should specifically address the distribution and use of the:

2. Performance and Quality Improvement Funding of $5,250,000;

3. Healthcare Workforce Development funding of $2,700,000; and

4. All other areas of funding enhancement.

Additionally, the Commissioner is directed to have the systems and institutions prepare specific budget plans and reports for the allocation and use of funds derived from the new tuition and fee levies, which should be incorporated into the FY 2003-04 operating budget submissions, and which shall be subject to final approval of the Board of Regents.

PRESENTATION ON LOUISIANA WORKREADY! AND CONFERENCE UPDATE

Dr. Clarke introduced Dr. Lisa Vosper, Assistant Commissioner for Accountability and Workforce Initiatives, who made a presentation on *Louisiana WorkReady!* and the conference held in early June entitled “What is the Talk All About?” He mentioned that two years ago a white paper was developed on how to address economic and workforce issues on a statewide basis.

Dr. Vosper noted that in 2001, the Board of Regents had convened partners from several state agencies to discuss coordinating assessment among and between agencies. She said this entity became known as the Louisiana Interagency Collaborative and was comprised of representatives from the Board of Regents, the Departments of Correction, Education, Social Services, State Civil Service, Labor, the Louisiana Community and Technical College System, and the Louisiana Workforce Commission. Dr. Vosper gave a powerpoint presentation which gave background information as well as the timeline of the Collaborative. Dr. Vosper mentioned that the Louisiana *WorkReady!* conference held on June 9-11, 2003, in Baton Rouge was a huge success.

Regent Robinson inquired as to how this information is being communicated to small businesses in the state. He said that small businesses struggle with getting skilled workers. Dr. Vosper said that since the conference, she has received at least 15 requests to visit each region of the state to share the information. She further stated that she has been sending the powerpoint presentation out to those who attended the conference so they can present it at Rotary Clubs, Chambers of Commerce, etc. She also said that the information needs to be shared with our colleges and universities, particularly the Louisiana Community and Technical College System because it works hand-in-hand with businesses in its area.

Regent Robinson suggested linking Louisiana *WorkReady!* with the Urban League which has a...
lot of programs for workers.

Regent Henry suggested going to local weekly newspapers and cable programs to let them know what Louisiana WorkReady! is all about. She said that Deputy Commissioner Reed could no doubt get a campaign together. She said it would be helpful to work with the freshman fairs and reach those students in high school who need assistance in soft skills.

**REPORTS AND RECOMMENDATIONS OF THE COMMISSIONER**

The Commissioner informed the Board of several matters.
