for income tax. The Plan proposes to eliminate sales taxes on groceries, home utilities and prescription drugs. PRESENTATION ON THE U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES RESEARCH COORDINATION COUNCIL

Mr. Bobby Jindal, Assistant Secretary, U.S. Department of Health and Human Services, presented information regarding the Secretary’s Research Coordination Council. He reported that the National Institutes of Health (NIH) is the principal health research agency of the Federal Government. He noted that its mission is to protect and improve human health by conducting and supporting research to understand the processes underlying human health and to acquire new knowledge to help prevent, diagnose, and treat human diseases and disabilities.

The NIH spends 80-85% of its total budget in support of biomedical and behavioral research and research training by more than 50,000 scientists located at more than 1,700 universities, research institutions, and medical centers across the United States and abroad.

In FY 2001 NIH made 297 awards to researchers in Louisiana providing approximately $86 million. This ranks Louisiana thirty-first in order by total dollars. On the list of Top 100 cities receiving support from NIH in FY 2001, Louisiana was represented only by New Orleans, which ranked sixtieth. He stated that Louisiana’s relative competitive position makes its research institutions eligible to compete for research and infrastructure development funding under the IdeA Program.

authorized by their board. Contributions toward administrative salary supplements by any outside or affiliated private interest should be made to the system Board unattached to any particular board employee. All such funds must be managed and controlled at the discretion of the appropriate system board. There can be no interference or inference associated with an employee’s allegiance.

**Ethical Conduct**

- The use of funds for administrative salary supplements derived from any outside or affiliated private interest must comply with state law, the State of Louisiana Code of Governmental Ethics, and relevant IRS regulations/interpretations.

**Timeliness of Data**

- In order to maintain current information, any administrative salary increases for positions carrying functional titles categorized by CUPA as Executive/ Administrative should be reported to the Board of Regents for inclusion in its data base by system boards in a timely fashion.

**State Obligation**

- Administrative salary supplements derived from private sources must not obligate the state or public funds to any additional future financial responsibility.
