

LOUISIANA BOARD OF REGENTS 2008-2009 TEACHER PREPARATION ACCOUNTABILITY SYSTEM

STATE OVERVIEW

In compliance with the Higher Education Opportunity Act of 1998, Louisiana created a Teacher Preparation Accountability System to assess the performance of teacher preparation programs within the state. During the first phase (2001-2002) of the accountability system, the performance of the regular and alternate certification students on the state teachers' examination (*Praxis*) was assessed. During subsequent phases (2002-2003, 2003-04, and 2004-05), the *quantity* of program completers at each institution was assessed and the *institutional performance* of each university was examined based upon passage rates on the *Praxis* and survey data from new teachers (who rated their teacher preparation programs on the extent to which the programs prepared the new teachers to address the state standards for teachers). The accountability system was created to include additional factors in the future that would examine growth of achievement of students taught by new teachers and perceptions of mentors of new teachers about the programs that prepared the new teachers. The purpose of the accountability system was to clearly demonstrate to the public that all universities and colleges in Louisiana were working diligently to produce quality teachers who worked effectively with PK-12 students.

During 2005-06, it was not possible to implement the Teacher Preparation Accountability System due to the closure of universities and schools in Louisiana and the inability to collect data from displaced teachers and mentors due to Hurricane Katrina and Hurricane Rita. A decision was made to revise the Teacher Preparation Accountability System. Institutional data, quantity data, and PRAXIS examination passage rate data have been collected and disseminated to the public in the *2005-06, 2006-07, 2007-08, and 2008-09 Institutional Reports for the Preparation of Teachers*. These reports can be found on the Board of Regents web site at: <http://www.regents.state.la.us/Academic/TE/instreports.htm>.

During 2003-2009, a Value-Added Teacher Preparation Assessment Model has been piloted that links growth of achievement of children taught by new teachers to the universities that prepared the new teachers. Initial results were released to the public during October 2007 and December 2008. During 2008-09, the value-added model will be integrated into the Teacher Preparation Accountability System, and the revised Teacher Preparation Accountability System will be piloted during 2009-2010.
